Location: Scouts from White Pine will take bus to Chippewa Ecology and then walk to the corral. Sioux and Chippewa scouts will walk to the corral.

Tip: Participants can sign up for additional rides in the afternoons or evenings.

TSCW517

Nuclear Science & Energy

Saving, producing, and using energy wisely will be critical to America's future. If we are to leave future generations with a world in which they can live as well or better than we have, Scouts and other potential leaders of tomorrow must begin the hard work of understanding energy and the vital role it will play in the future.

Nuclear science gives us a simple explanation of the natural world. The ultimate goal of nuclear science is to find out if there is one fundamental rule that explains how matter and forces interact. Earning the Nuclear Science merit badge is a chance for Scouts to learn about this exciting field at the cutting edge of science today.

Linked Requirements: Energy; Nuclear Science

Notes and Prerequisites: Prerequisites: Watch videos and complete energy audit for Energy MB Requirement 4.
